Plan for Re-Entry for Great Lakes Episcopalians

Published on May 1, 2020; Updated May 4; Updated June 19

The Coronavirus continues to impact our communities across the world. As Episcopalians, we have a deep desire and call to care for our people, our communities, and each other through this situation.

Our goals include:

- Offering Hope to our communities in this uncertain time.
- Continuing to provide our people and communities with the very best pastoral care now and in the months to come.
- Providing the continuity of prayer and worship, whether gathered in person or digitally.
- Protecting the most vulnerable among us by limiting contact and initiating practices to slow the spread of infectious disease.

The following multi-phase plan contains practices for how Episcopalians in the State of Michigan will undertake re-entry after hiatus, pending further recommendations from health officials and our governor. The way forward will not be immediate and may not be linear. It is through a faithful balance of science and pastoral care that we will respond accordingly.

The plan contains the following:

- **Phase I**: Hiatus
- **Phase II**: Re-entry
- **Phase III**: Deeper Participation
- **Other**: Summer Programming
- **Other**: Addressing Positive Infection
- **Appendix A**: Questions for Parish Leadership
- **Appendix B**: Resources

We recognize that all ministry is contextual. The guidelines articulate practices that fall into categories of “requirement” and “recommendation.” Requirements are mandatory and enforceable by the bishop and are listed using the phrases “must...” and “…are prohibited”. Recommendations, listed below using the phrase, “we advise” and “should,” are best practices.
and may be modified as appropriate to your local context under the authority of the parish leadership.

And, as we continue to follow guidelines for safety, please remember to pray for the ill and recovering, for the grieving, and for the lonely. We pray for researchers, medical professionals, health policy experts, front line workers, and for those who clean and stock and ship. And we pray for each other - that we may continue to be a people of hope in the midst of fear and unknown.

Contact your diocesan office with any questions or clarifications, using the following contacts:

- Eastern and Western Michigan: Canon Katie Forsyth, kforsyth@eastmich.org
- Michigan: Anna Stania, astania@edomi.org
- Northern Michigan: Canon Jane Cisluycis, jane@upepiscopal.org

Phase I: Hiatus

Building and Office Use Guidelines

We advise that staff members be permitted to work from home, as appropriate to their duties.

In-building staffing must be minimal and drop-in to maintain essential operations (deposits, mail processing, etc.) Staff members must communicate to ensure there is only one person in the building at a time and common surfaces, including door knobs, counter tops, and office electronics, must be disinfected before and after use.

We advise maintaining your standard count procedures with modifications to ensure safety and transparency.

Worship & Formation

Churches are prohibited from in-person worship and all congregations are recommended to find means of gathering using online tools, including but not limited to:

- Sunday Worship
- Daily Office prayers
- Bible Studies
- Small Group formation and fellowship
Required Guidelines for Worship:
- Live-streaming from inside a church building is prohibited unless authorized by your bishop.
- “Drive-thru” Eucharist is prohibited
- “Virtual communion” in which a minister “blesses” bread and wine through a phone or online connection is prohibited. Please see footnote for Presiding Bishop Michael Curry’s “Word to the Church”.
- Graveside funerals of ten people or fewer are permitted, while following physical distancing and mask guidelines
- Outdoor weddings of five people or fewer are permitted, while following physical distancing and mask guidelines
- Baptisms are permitted on an emergency only basis

Recommendations for Gathering while Separated

We advise offering opportunities to gather your community while physically separated using digital tools like video conferencing and social media, for ongoing worship, formation, and fellowship.

We advise identifying a method by which your leadership will continue to engage your non-online parishioners, whether by phone, training and assistance to get access online, or some other means.

We advise that all pastoral care be conducted virtually, as you are able. In-person contact must be minimal.

Service and Outreach:

- Requirements for group size, physical distancing, sanitation, and use of masks must be followed.
- Distribution ministries must limit volunteer time spent inside the building. Distributions may only take place outside or on a curb-side basis.
- There must be no preparation of food in the building unless authorized by your bishop.

---

1 On-site rectories are exempted from this requirement in the Diocese of Michigan.
Phase II: Re-Entry

Please remember that many of our congregations are composed of individuals that meet the description of vulnerable population. Re-opening might not be appropriate for every congregation. Congregations might also consider stepping up in scale, offering, and size to reach the new limit.

Before you choose to re-open, please work with your parish leadership to answer the questions listed in Appendix A.

Please see the section titled "Other: Addressing Positive Infection" for guidelines to follow should a person experiencing the COVID-19 infection be present in your building or at a church-sponsored event.

In the situation that someone has tested positive for COVID-19 and has entered the building or attended a church-sponsored activity during the infection period, guidelines are offered in the section titled, "Other: Addressing Positive Infection".

Preparing the Church for Re-Entry

Before any re-entry, congregations must deep clean the entire church building, including pews, bathrooms, doorknobs, light switches, stair railings, and microphones. Please see Appendix B for current cleaning guidelines from the CDC.

We advise the consideration of removing all non-essential items from rooms so that there are fewer surfaces to touch.

We advise posting signs and making announcements about non-contact greetings and reminders to refrain from shaking hands and hugging.

We advise communicating with your congregation before they arrive about the preparations you have done for their re-entry and to reiterate that, if they are sick or are of a vulnerable population, they should stay home and join online, if available through your congregation or another.
Building Use Guidelines

Office Guidelines

We advise that staff members continue to be permitted to work from home, especially the immunocompromised, parents of children, and those older than 60.

We advise keeping in-office functions as minimal as possible, only to ensure essential operations.

Any staff members working from church-owned buildings must continue to follow social distancing and sanitary guidelines, including:

- Maintaining six feet of separation between individuals
- Regular handwashing and sanitizer use
- Regular disinfection of common surfaces including door knobs, countertops, and office electronics.

Other Guidelines

Congregations must follow all physical distancing and hygiene guidelines including use of non-surgical masks. Please consider having a supply for those who arrive to your building without one.

Buildings must be thoroughly cleaned regularly and between user groups, paying extra attention to high-touch surfaces. If holding multiple worship services, schedule your service times to allow for cleaning in-between.

We advise posting signs outlining COVID symptoms and urging people to stay home/seek medical attention if they experience symptoms or feel unsafe.

We advise maintaining appropriate stock of tissue, soap, hand sanitizer, and disposable paper towels for drying hands.

We advise the consideration of allowing building users/rental groups back in (music lessons, etc.) on the condition that they are able to observe gathering limits and hygiene protocols.

We advise creating an emergency plan for possible outbreak and how you might respond in care, in communication, and in cleanliness. Some guidelines are included under “Other: Addressing Positive Infection” on page 10.

We advise maintaining a visitor log (including phone numbers and email addresses) for all who enter the building in the event that they may have come in contact with someone with the
disease and reporting is required. To the extent possible, the log should be managed by a
greeter or an office staff-person or volunteer or follow some other no-touch method.

We advise the use of gloves only for food distribution. Epidemiologists are recommending
against the use of gloves for regular activities, understanding that the virus lasts longest on
smooth, shiny surfaces. Regular handwashing and sanitizer is more effective.\(^3\)

**Requirements for Gathering Size and Contact:**

- Limit events and meetings that require close contact. Most, if not all, meetings and
  formation opportunities should continue to take place online.
- Limit any in-person, inside gatherings to no more than 25\% of your capacity\(^4\), or the
  maximum number for your space while allowing 6 feet, 360\(^\circ\) of total separation between
  households, whichever is fewer. If your regular ASA surpasses that number, consider
  how you might spread the number of people gathered closely together at any one
  moment, including the use of hybrid-worship\(^5\), multiple service times, or in another
  space.
- You may decide to consider holding services and gatherings in large well-ventilated
  areas or outdoors. Limit any in-person, outdoor gatherings to no more than the current
  State guidelines, or the maximum number for your space while allowing 6 feet, 360\(^\circ\) of
  total separation between households, whichever is fewer.
- Non-surgical masks are required. Please consider having a supply for those who arrive
  to your building without one.
- To avoid crowding and bottle necks, there is no receiving line following a service.
- There is no nursery or in-person Sunday school or coffee hour following a service.
  Continue encouraging people to leave the building rather than mingling in-person.

**Worship Guidelines**

Congregations may choose to begin to offer small in-person worship gatherings while following
the following guidelines.

The following options might be appropriate considerations as congregations begin to re-enter:

\(^3\) Information compiled by Brett Jager, MD, PhD, Assistant Professor of Infectious Diseases at Stryker
School of Medicine at Western Michigan University. [Click to access a combined PDF of studies.]

\(^4\) Official capacity is determined by the fire department.

\(^5\) Holding simultaneous in-person and online worship, or offering an in-person opportunity and an online
opportunity at separate times.
● Maintaining some online worship and formation opportunities for those that will still be unable to join an in-person gathering, either due to risk or sense of safety
● Multiple services with fewer attendees to spread out the number of people gathered at one time
● Requiring people to sign-up for services in advance while allowing space for visitors who may drop in
● Creating and assigning fixed seating to maintain safe distances
● Holding services outside.  
● Moving services to a larger and more open space, such as the parish hall

The preacher may remove their face covering for the delivery of the sermon, only if the preacher is more than 20 feet away from any other persons.

Requirements for Worship:

● All common surfaces must be cleaned before and after worship, including door knobs, counter tops, pews, electronics, and sacramental items.
● Morning Prayer and Holy Eucharist are permitted, with safety modifications outlined in this document.
● Live-streaming may resume from inside the church building while maintaining appropriate physical distancing with any participants.
● There is no physical touching during the passing of the peace.
● There is no passing of an offering plate through the pews. Encourage worshippers to offer financial gifts online or to a stationary plate as they come in or during the course of worship to limit contact.
● Households must sit at least six feet apart, 360°, if gathered for in-person worship.
● All worship leaders, including acolytes and lectors, must maintain at least 6 feet of distance apart at all times.
● If using a shared handheld microphone, the device must be wiped and sanitized between users.

(Optional) Sharing in Holy Communion

Congregations wishing to celebrate Holy Communion in Phase 2 may do so using the following requirements and guidelines.

Clergy and parish leadership should consider local transmission rates and access to testing before deciding to offer Holy Communion.

6 See Appendix C for resources around planning outdoor worship, offered by the Episcopal Diocese of Maine.
Clergy may also decide not to offer communion or make alternative provisions if they have personal, pastoral, or medical reservations.

If offering communion, parish leadership should provide notice to the congregation that there is some risk for public worship and receiving communion during this time of pandemic, and acknowledge that some may and should decide not to attend or receive.

Holy Communion is not an individual commodity but a communal experience. We therefore direct against the following practices:

- People bringing their own bread to be consecrated,
- Pre-consecrated bread being placed into the pews for reception,
- Drive-by, drive-in, or drop-in distributions of communion

Preparing for Holy Communion

- Altar guild members must wear masks and wash hands with soap prior to starting their work.
- Vulnerable persons of any ministry group, such as the Altar Guild or Acolytes, may choose not to serve.
- Fresh purificators and corporals must be used for each service.
- All vessels must be washed with soap between services.
- Wafers are preferred to homemade bread.

The Consecration of Holy Communion

- The officiant alone must bring the bread and wine to the table at the time of the offertory.
- All of the elements for Holy Communion are to be placed on the Holy Table for the Eucharistic Prayer.
- The Officiant, Deacon, other Eucharistic Ministers, and any participating Acolytes must wash hands or use hand sanitizer before celebrating and before distribution. Gloves should not be used.
- The Officiant alone stands at the altar. Others should be 6 feet or more away.
- The priest’s wafer and chalice are uncovered in front of the officiant during the Eucharistic Prayer. They are for the officiant alone. It is consumed entirely by the officiant or appropriately disposed of after the service.
- The people’s wafers should be in a ciborium on the table, which remains covered throughout the Eucharistic Prayer. If a covered ciborium is not available, a spare chalice

---

7 Information compiled by Brett Jager, MD, PhD, Assistant Professor of Infectious Diseases at Stryker School of Medicine at Western Michigan University. Click to access a combined PDF of studies.
and pall may be used. If a spare chalice and pall are not available, any container with a cover may be used.

- During consecration, the officiant touches the ciborium, not the wafers. Just as touching the container of wine is touching the element, so touching the container of bread is touching the element.
- The cup is reserved for the officiant. It is consumed entirely by the officiant or appropriately disposed of after the service.
- The distribution of consecrated wine is not permitted at this time due to the increased risk of contact and the risk of lifted masks in the presence of the Eucharistic Minister.

Distributing Holy Communion

- Before distribution, a worship leader should explain to the congregation how Holy Communion has been prepared and should be received.
- Everyone distributing communion must use hand sanitizer before they begin distribution.
- Masks must continue to be worn during the distribution of communion. Ministers are encouraged to wear a N95 mask, if possible. Gloves are not recommended. Persons two years or younger should not wear face coverings, as per CDC guidance.
- Communicants should use hand sanitizer before receiving.
- The bread must be distributed while maintaining six feet of distance between households, with the following options:
  - At stations, placing the host in the hand. Hand to mouth distribution is not permitted. The distribution should happen without directly touching the hand of the person receiving. If hand to hand contact happens, the minister should re-sanitize.
  - In the pews, directly to households, placing the host in the hand.
- If a blessing is preferred, the blessing must be given without touch.
- The floor may be marked to guide distance as households come forward. If space permits, the traffic pattern should be one-way to avoid crossing paths.
- Communicants should only lift their mask and consume the bread when they are at least six feet away from the distribution point.
- After distributing communion, any remaining elements must not be consumed but returned to the earth.
- To avoid stigmatization and for those who may be participating by live stream, a prayer for spiritual communion from the Armed Services Prayer Book, St. Augustine’s prayer book, or other resource, may be used in the liturgy.

Eucharistic Visitation

- Eucharistic Visitors are recruited from among those who are not at high risk. If the recruited visitors have not served in this ministry before, they must trained before they begin service.
- Clergy may participate in Eucharistic Visiting or may choose to reserve themselves for emergency visits, thus limiting their exposure.
It is recommended that visits to happen outside on porches, patios, or sidewalks, as possible.

Outside visits may follow the following practice or similar:
- The recipient places a bowl or other container outside their door, perhaps on a small table.
- When the EV arrives, they place the consecrated bread into the container, knock, and stand back 6 feet.
- Appropriate prayers are said before and after the person consumes the consecrated element.

Recommendations for Worship:
- Singing is among the riskier behaviors when it comes to spreading the virus. We advise refraining from singing when gathered in-person, or consider how you might make extra precaution to further separate singers from the congregation and from each other.
- We advise the consideration of removing prayer books, hymnals, and bibles from pew racks during this time. Worship services may be followed using single-use bulletins (that are picked up rather than handed out), by sending a digital copy for people to access on their personal devices, or by use of screen and projection. Please make every provision for recycling single-use bulletins and limiting the number of bulletins printed for one household.
- We advise developing a plan for dismissing congregants in an orderly way to ensure social distancing as people exit.
- We advise empowering your ushers to remind participants about these guidelines and state requirements.
- We advise developing a plan to reduce the number of doors that people must touch to enter your service, including the use of door stops or greeters.

Requirements for Special Services:
- Baptisms, weddings, and funerals may resume and must be limited to 25% of your indoor capacity, 100 people outside, or the maximum capacity while maintaining 6 feet, 360° of distance between households, whichever is fewer, while following distancing plans.

---

Service and Outreach:

- Requirements for group size, physical distancing, sanitation, and use of masks must be followed.
- We advise that distribution ministries limit time spent inside the building and allow for outside or curbside service.
- Any food distribution must be to-go, or served by a person using gloves. Buffets are prohibited.
- Food may not be prepared inside the church building unless authorized by your bishop.

Phase III: Deeper Participation

Building Use Guidelines

Events and in-person gatherings are permitted. We advise making every provision to avoid crowding.

In-person meetings are permitted. We advise considering how you might enable your high-risk members to join your gathering digitally.

Regular office operations are permitted. We advise considering how you might maintain flexibility for staff members that are high-risk or have children unable to attend school or access childcare.

Communal spaces must continue to be cleaned on a regular basis, including before and after gatherings.

We advise maintaining a visitor log (including phone numbers and email addresses) for all who enter the building in the event that they may have come in contact with someone with the disease and reporting is required. To the extent possible, the log should be managed by a greeter or an office staff-person or volunteer or follow some other no-touch method.

We advise the use of gloves only for food distribution. Epidemiologists are recommending against the use of gloves for regular activities, understanding that the virus lasts longest on smooth, shiny surfaces. Regular handwashing and sanitizer is more effective.\(^9\)

\(^9\) Information compiled by Brett Jager, MD, PhD, Assistant Professor of Infectious Diseases at Stryker School of Medicine at Western Michigan University. Click to access a combined PDF of studies.
Worship Guidelines

Worship gatherings of all sizes are permitted with the following guidelines:

- We advise considering maintaining an online/hybrid worship option for people that are high-risk and needing to maintain stay-home precautions.
- Physical distancing is not required. We advise avoiding crowding in the sanctuary and building to the extent possible. Consider offering multiple services to help people spread out.
- We advise considering continuing to remove prayer books, hymnals, and bibles from pew racks during this time and instead use single-use bulletins or digital copies for people to access on their personal devices. Please make every provision for recycling single-use bulletins and limiting the number of bulletins printed for one household.
- Congregations must continue the use of no-touch alternatives for the passing of the peace.
- Congregations must continue the use of no-touch alternatives for the offering.
- We advise setting aside special space within your worship area to be designated for people of vulnerable populations

Eucharist is permitted, with the following guidelines:

- Clergy must wash their hands with soap and water before services and use hand sanitizer visibly before distributing communion. If a clergy person or parishioner feels sick or has any symptoms, they should remain at home.
- We strongly advise against using the common cup. Though it may seem counterintuitive, intinction is not a safer choice. Please remember that receiving in one kind (bread or wafer only) is full participation in the Eucharist and congregations may consider making provision for distribution without the use of a common cup.

Coffee hours are permitted with the following guidelines:

- Congregations must make every provision to ensure adequate space to avoid crowding.
- A gloved person must distribute any food or drink. Buffets and self-serve are not permitted.

Other: Summer Programming

We advise against offering in-person summer programming, including Vacation Bible Schools and Mission Trips.

While the risk to children appears to be somewhat lower, there is an ongoing risk of carrying the virus back home and sharing with other family members. We advise considering providing an online or no-touch drop off at-home activities.
Other: Addressing Positive Infection

In the situation that someone has tested positive for COVID-19 and has entered the building or attended a church-sponsored activity during the infection period, the following requirements and guidelines must be followed.

After receiving word of a positive infection, a designated leader must verify with the person that the county is doing contact tracing. Using your entry log, conduct notifications of all people who may have come in contact with the person, while keeping their identity confidential, if appropriate. These notifications might include, but are not limited to:

- Fellow worship-goers
- Outside groups or small groups that used the building within 72 hours of the person’s presence
- People who may have cleaned the building within 72 hours of the person’s presence

Encourage all people who may have been affected to self-quarantine for 14 days.

Leadership should consider whether you will suspend worship or other in-person gathering for 14 days, especially if the person had been present at a worship service.

If the person had entered the building, parish leadership must make provision for a deep cleaning of the space, including any affected rooms, access hallways, door knobs, and bathrooms.

Leadership should plan for and adopt a communications plan\(^\text{10}\), including:

- Identifying a spokesperson for any press inquiries
- Developing and sharing the church’s clear, concise, constructive, and transparent message
- Communicating with the members of the congregation
- Communicating with the bishop and diocesan office

---

**The Rt. Rev. Whayne M. Hougland, Jr.**, Bishop, Eastern and Western Michigan

*Continued, The Joint Standing Committees of the Episcopal Dioceses of Eastern and Western Michigan*

\(^{10}\) The Dioceses of Eastern and Western Michigan are operating under the plan linked in Appendix B.
The Rt. Rev. Dr. Bonnie Perry, Bishop, Michigan

The Rt. Rev. Rayford Ray, Bishop, Northern Michigan

This plan was compiled in conversation with the bishops, staffs, and elected leadership of the Episcopal Dioceses in the state of Michigan, following current recommendations of the CDC, and with resources offered from the Episcopal Diocese of Texas, the Wisconsin Council of Churches, and the Office of the Presiding Bishop.
Appendix A: Questions for Parish Leadership

We offer this list of questions for your vestry or bishops committee to consider in consultation with your clergy and parish staff. When we enter Phases II or III, we recommend you work through these questions before deciding to re-open for in-person gathering.

- How will you maintain connection with those who cannot gather in-person, even when restrictions are lifted?
- How many people can your worship space hold if you are worshipping with household groups sitting six feet apart?
- How will you discourage congregating after worship services?
- How will you continue to be invitational and open to people that are not yet part of your community?
- How will you ensure sanitation and disinfection for your communal spaces?
- How might your building use agreements need to be updated to reflect the new realities revealed by the pandemic?
- How will you maintain necessary stewardship to maintain operations while the congregation, or part of it, is dispersed?
- What assets do you have (space, yard, volunteers) that might be used to respond in service to your community in light of the pandemic?
- If someone contracts COVID-19, how will you communicate with your congregation and members who may have come into contact with that individual, while remembering privacy and pastoral care?
- If someone who has been in your building contracts COVID-19, how will you conduct an intensive cleaning prior to its next use?
- How will you communicate your safety plan and best practices to the congregation?

Appendix B: Resources

**MapDash-COVID-19** - an online resource for checking COVID-19 data on a local level

**Centers for Disease Control** - vast resource for COVID-19 precautions and suggestions
- [Cleaning your Facility](#) - guide for building cleaning
- [Sanitizing Office Spaces](#) - guide for frequently used spaces
- [Preparedness for Sacred Spaces](#) - a set of best practices for religious institutions

**State of Michigan Coronavirus Information Hub**

**Outdoor Worship Planning Resource from the Episcopal Diocese of Maine**
Communicating and Crisis Plan for Infection or Death due to COVID-19, The Episcopal Dioceses of Eastern & Western Michigan

Log of Updates

**Updated 5/4:** Added diocesan seals, names of bishops

**Updated 6/19:** Some non-substantive formatting. Modified language around capacity, use of gloves, and process for addressing a positive infection. Added provision for optional practice of Eucharist in Phase II. Added outdoor worship resource from the Diocese of Maine in Appendix B.
